

POWERFUL TORQUE

Our Cordless power tools provide maximum power-to-weight ratios, giving you the strength to bust fasteners while maintaining overall balanced control.

COMPACT DESIGN

We've eliminated unnecessary bulk to help you work in restricted areas & access tight spots that only hand tools once reached.

BETTER BALANCE

A strategically-placed handle provides better overall balance, which in turn delivers greater control and productivity.

ERGONOMICS

No matter the size, our Cordless Tools are engineered for ultimate comfort, so you can perform just as long as they will.

DURABILITY

Drop testing and many other stringent quality controls mean you can also take comfort in knowing these rugged tools are built to last.

1/2" 18V Brushless Cordless Impact Wrench

1,626Nm Break Away Torque

Free Speed - 1500 RPM
Blows / minute - 2,100

Built-in brake stops the anvil & prevents the tool from throwing fasteners & sockets

Brushless Motor for low maintenance

Super Bright LED lights

Digital microprocessor-controlled switch maximizes performance, run time and durability

Ergonomic Handle design for ultimate comfort

Three torque settings in forward & reverse

Weight - 3.9 kgs

View Product Video

Our 18V 5.0Ah Monster-Lithium Batteries provide longer run time & greater endurance, thanks to their high-grade lithium cells. They also provide a built-in fuel gauge & a micro-controller that protects the motor from overheating. 2 year (1000 cycles) warranty.

Snap-on Tyre Pressure Monitoring System

View Product Video

- Diagnoses Tyre Pressure Monitoring (TPM) sensors and determines if a replacement is needed
- Captures TPM sensor data and displays PSI, ID, temperature and battery status
- Relearns vehicle TPM systems by providing vehicle-specific reset procedures when vehicle's tyres have been rotated
- Features vehicle-specific prompts that guide the TPM system relearns following a sensor replacement
- Includes software to program aftermarket TPM sensors
- Works in conjunction with Snap-on® diagnostic platforms to relearn sensor IDs on Asian vehicles
- Provides quick registration of new sensor locations after a tire rotation
- Aftermarket programming software to easily replace TPM sensors with low battery life, one that is non-functioning or to install duplicates in summer/winter tires
- Prints sensor information using TPMSconnect software (included) on a desktop or laptop computer
- Tests key fobs for proper signal strength and battery condition
- Includes replacement TPM sensor part number lookup for OEM and aftermarket sensors
- Daylight-readable 2.8" high-resolution VGA display
- Built-in lithium-ion rechargeable battery and charger included
- Includes a TPMS connect portal that installs on a PC or laptop, & administers software updates
