## COOL TOOLS DEC 2022 / JAN 2023

### Snap-on Pliers always come through in a pinch...

The key to making quality Pliers & cutters is precise manufacturing & using the best possible materials. That's why we use special alloy steel & an exclusive cold-forged process to add strength & longevity to our pliers. We also employ proprietary design touches like joints positioned close to the cutting edge, making it easier to cut heavy wire while reducing user fatigue.
