Plug-In Style Booster Cables

Heavy Duty 25' Service/Tow Truck Mounted Battery Booster Cable Set

Engine starting of stranded vehicles without lifting the service/tow truck hood

Features and Benefits

- Low resistance booster cables with heavy gauge 100% copper strands send maximum current to vehicle being jumped
- 500 amp clamps have recessed copper jaws and are fully insulated for safer engine starting
- Heavy duty clamp jaws and spring bite securely on top or side post batteries
- 25' long, two gauge wire remains flexible in the cold and coils for storage
- Mounting Kit included

See page 2 for installation instructions and schematic
